Mr. Nelson concluded by asking the Council what he needs to do in order to obtain documented/ guaranteed access.

Mayor Bird advised Mr. Nelson that a decision cannot be reached during this meeting, and that he needs to start by having an engineer draft a proposed easement, then take it before the Planning

and Zoning Commission. Mr. Nelson was also advised to work with City Staff Dean Johnson and Drew Eschler, to ensure the process goes as smoothly as possible.

Connie Elison addressed the council regarding her concerns about the house on 109 N Wendall Lane. Mrs. Elison stated that it has been four years since the house caught on fire and that the property is currently breaking six different City ordinances and is a nuisance in the neighborhood. Mrs. Elison requested that the City start assessing fines on the owner/lienholder and address the situation before the property does more damage to the neighborhood.

City Attorney, Grant Charles was present and provided insight on what the City has been doing so far. Mr. Charles explained that he has been sending letters to the lienholder of record (as of December 2021) and that he would follow up with the County Recorder's office to ensure his information was up to date. One more notice will be issued and if there is no response, Mr. Charles will be working with the PD to investigate citations.

Councilman Busenbark clarified that he would like unaware that the "Free Dump Week" service was previously donated and would like the City to remain open to that possibility, keeping that expense in future budgets with the understanding that it could be allocated to other areas if the Kettle's chose to donate their services in the future.
